DISCOVER 500 / DISCOVER 500 HYBRID

Discover 500 Black
Art.no 38494

Discover 500 Blue
Art.no 38457

Discover 500 Yellow
Art.no 38458

Discover 500 Hybrid Black
Art.no 38453

PRODUCT OVERVIEW

The packaging contains the following parts:

DISCOVER

- Lamp unit + Headband
- No batteries included
- Quick Guide

DISCOVER HYBRID

- Lamp unit + Headband
- Rechargeable Battery 1.25Ah
- Helmet mount (including adhesive tape)
- Quick Guide

BEFORE USE

HYBRID TECHNOLOGY

The battery compartment is compatible with both 3xAAA batteries and the Silva rechargeable Hybrid battery.

HYBRID BATTERY CHARGING

- A USB-C connector is located on the front of the Hybrid battery pack. Attach a USB charge cable to this USB-C connector.
- Connect the other end of the charging cable to a USB-port (either from a computer, car or a USB charger/adaptor connected to a wall outlet).
- Next to the USB-C connector is a charge indication LED, showing the charging status:
 - Red light = battery is charging
 - Green light = battery is fully charged

Note! When battery is fully charged the battery automatically switches to maintenance charge. However, never leave a battery unattended while charging.

INSERT THE BATTERIES (HYBRID OR AAA)

Open the battery lid/back panel of the lamp body and insert the batteries. Please note the battery polarity, printed on the inside of the battery compartment.

Note! Either Alkaline, NiMH or Lithium batteries can be used.

Note! Do not mix different brands of batteries. Do not mix batteries with different levels of discharge.

Note! If you don't intend to use the headlamp for several months, make sure you remove the batteries from the lamp.

ADJUST THE HEADBAND

The elastic headband with anti-slip rubber on the inside is designed to give a comfortable fit at all times. Adjust the headband by moving the sliding buckle to fit it onto your head.

HELMET MOUNT (DISCOVER HYBRID)

Both Discover and Discover Hybrid are compatible with the helmet mount, but is only included with the hybrid model. The helmet mount can be bought separately for Discover. The helmet bracket comes with pre-mounted adhesive tape on the back for easy mounting on any helmet. The adhesive is a polyethylene foam tape developed to not damage or cause any type of weakness to the plastic in your helmet, but make sure that your helmet is suitable for this by checking its specifications with the manufacturer of the specific helmet.

- Remove the protective film covering the adhesive tape on the bracket.
- Make sure the surface of the helmet is clean and dry. Firmly press the bracket in correct position onto the helmet. For optimal effect - you should leave the attachment in this state for at least 24 hours before using it.
- To attach the lamp to the bracket, remove the headband from the headlamp bracket, slide the lamp on to the bracket from the top until you feel/hear a click.
- Remove the lamp from the bracket by sliding the lamp upwards.

BUTTON LOCK

On the top of the lamp unit there is a push button which controls all light modes. This button can be locked to prevent the lamp from being lit by accident.

To activate the button lock: make sure the lamp is turned OFF, press the button with an extra long press (3 sec). The red LED next to the [3s] symbol on the side of the lamp will start flashing (the red front light will also light up briefly). When the red LED next to the [3s] symbol stops flashing and lights constantly - the button is locked.

If you try to start lamp with button lock activated the LED next to the [3s] symbol will flash red to indicate that the lamp is locked.

To deactivate the button lock: press the button with an extra long press (3 sec). The red LED next to the [3s] symbol on the side of the lamp will start flashing. After 3 seconds, when the button lock is deactivated, the LED next to the [] symbol will turn steady green. Now you can start the lamp as normal.

DURING USE

SWITCH ON YOUR HEADLAMP

The push button on the top of the lamp controls all light modes.

→ SHORT PRESS

→ LONG PRESS

In addition to white light, the lamp offers red and orange light modes that are optimal in different situations.
Red light: preserves your night vision
Orange light: good for reading maps/instructions

Note! When toggling to MAX mode, the lamp will flash shortly as a visual indication to let you know which mode you are in. This is helpful to prevent unnecessary button presses.

SILVA INTELLIGENT LIGHT

This lamp features Silva Intelligent Light which combines a long reach spot light with a close flood light. The lamp head is tiltable to give you the right light, exactly where you need it.

TEMPERATURE CONTROL

The temperature of the lamp body will increase during use and cooling is an essential part of how well the lamp performs. The temperature of the lamp is affected by the brightness level, ambient air temperature and airflow (wind).

The lamp unit is equipped with a temperature control sensor that prevents the lamp body from overheating by reducing the power to the LEDs.

Note! The lamp can get very hot!

- Always make sure to activate the button lock when the lamp is stored in a closed compartment such as in a bag, pocket or similar.
- Keep away from children.
- Make sure that the lamp does not come in contact with sensible or flammable materials.
- The front glass or heat sink must not be covered with dirt or other materials while the lamp is switched on.
- Do not touch the front glass with bare hands.
- Never look directly into the lamp while switched on.

BATTERY STATUS INDICATION

When the lamp is switched ON or OFF - the LED indicators on the side of the lamp will show the current battery status for 5 seconds. To check battery status during use, the lamp needs to be switched OFF.

The LED indicators indicates the following:

- 4 green LEDs = Fully charged
- 3 green LEDs = 75% of the battery remains
- 2 green LEDs = 50% of the battery remains
- 1 green LED = 25% of the battery remains
- 1 red LED = 10% of the battery remains

AFTER USE

MAINTENANCE

To make sure you get maximum performance from your headlamp, clean it regularly with a damp cloth. Headband cleaning: rinse in warm water.

Open battery compartment and wipe dry if lamp has been exposed to heavy rain or accidentally submerged.

TECHNICAL SPECIFICATIONS

Lumen / Burn time / Light distance:	See matrix below
Weight (lamp unit):	68 g (2.04 oz)
Weight (hybrid battery):	25 g (0.9 oz)
Battery type:	Silva Hybrid Battery 3.8V / 1.25Ah / 4.75Wh or AAA
Charging time:	2.5 h
Water resistance:	IP65
Operative temperature range:	-30 - (+)50°C
Storage temperature range:	-40 - (+)60°C

LIGHT MODE	TRUE LUMEN ANSI*	OPTIMAL FOR	BEAM PATTERN	BURN TIME ANSI** HYBRID/AAA	BURN TIME TOTAL AAA	LIGHT DISTANCE ANSI
MAX	500 lm	long range use	wide+spot	2 h / 2 h	15 h	80 m / 262 ft
MED	100 lm	close range use	wide+soft	5 h / 5 h	20 h	20 m / 66 ft
MIN	15 lm	ambience/reading	soft	25 h / 40 h	50 h	7 m / 23 ft

Values are measured and specified according to the ANSI FL1 STANDARD
*Actual light output after 30 seconds.
**Burn time from power-on until lumen reaches <10%.
Total numbers show burn time from power-on until insufficient light

PROTECTING THE ENVIRONMENT.

Lamp unit, batteries and packaging are recyclable. Please dispose these items at designated recycling stations.

WARRANTY

Silva warrants that your Silva headlamp for a period of five (5) years* will be free from defects in materials and workmanship under normal use. Rechargeable batteries are covered for 2 years or 300 charge cycles. Silva's liability under the warranty is limited to repairing or replacing the product. This limited warranty applies only to the original purchaser. If the product is found to be defective during the warranty period, please contact the original place of purchase. Make sure to have your proof of purchase handy when returning the product. Returns cannot be processed without the original proof of purchase.

This warranty does not apply if the product has been modified or if it has not been installed, used, repaired or maintained in accordance with instructions from Silva. The warranty also does not apply if the product has been subjected to abnormal physical or electrical use or in case of negligence, abuse or accident. The warranty also does not cover normal wear and tear. Silva is not responsible for any consequences (direct or indirect) or damages arising from the use of this product. Under no circumstances will Silva's liability exceed the amount you paid for the product. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

The warranty is only valid and may only be processed in the country of purchase. The consumer's rights pursuant to law of the country of purchase are not affected by this warranty.

* Headlamp: Five (5) years.

* Rechargeable battery: Two (2) years or 300 charge cycles.
